

Mark Pryor

FULL STACK PHP DEVELOPER

Melbourne, Victoria | +61 424 866 266 | markpryor@gmail.com

Summary

A passionate PHP full stack developer with more than 20 years' experience across a diverse range of industries, working with various applications. Skilled in both front-end and back-end development using Laravel, MySQL, APIs, JavaScript, CSS, HTML, and Microsoft Azure/AWS.

Involved in all stages of the development lifecycle—from requirements gathering and exploring solutions to design, development, testing, implementation, documentation, support, and maintenance. Takes ownership of work and upholds high coding and quality assurance standards. Committed to monitoring and performance tuning to ensure scalable and efficient applications.

Experienced in working within cross-functional teams, contributing to Agile rituals, and mentoring peers. Maintains a strong improvement focus and consistently seeks to develop knowledge, stay up to date with new technologies, and support the overall mission of the business.

Quick to adapt to evolving business needs and capable of translating challenges into precise, scalable solutions. Communicates and collaborates effectively with all business levels. Proven ability to work independently or as part of a team, always aiming to unlock potential and support growth—for both the business and personal development.

Now seeking a role that leverages deep experience in application development while continuing to evolve, grow, and contribute meaningfully to business success.
